ANNOUNCEMENTS

10/03/2017, 15:32 hrs IST: The testdata for Save Spaceman Spiff (ZCO13004) has been updated, and all submissions re-evaluated. The inconvenience is regretted.

20/10/2016, 16:20 hrs IST: You can now make submissions to the contest problems in Java and Python.

14/11/2015, 13:35 hrs IST: The solutions of all the problems are made visible/public as the editorials are not available for these problems. This is done upon the request of the students who are competing for tomorrow's Zonal Computing Olympiad.

CONTEST DETAILS

Rules and Regulations:

- The contest is open to all. There are no prizes for this contest.

- This is a practice contest for ZCO/IOI aspirants.

- This is an unrated contest.

- Submissions can only be made in **C, C++, Java and Python**

- The problems belong to previous years' ZCO contests.

- The problems may have multiple subtasks with each subtask having different test cases.

Judging Criteria:

- All the problems have same points alloted to them.

- Users are ranked according to the most problems solved. Ties will be broken by the total time for each user in ascending order of time.

- The total time is the sum of the time consumed for each problem solved. The time consumed for a solved problem is the time elapsed from the beginning of the contest to the submission of the first accepted run plus 20 penalty minutes for every previously rejected run for that problem (Wrong answer, Time limit exceeded, Runtime Error, Compilation Error). There is no time consumed for a problem that is not solved.

CodeChef (http://www.codechef.com) - A Platform for Aspiring Programmers
CodeChef was created as a platform to help programmers make it big in the world of algorithms, **computer programming** and **programming contests**. At CodeChef we work hard to revive the geek in you by hosting a **programming contest** at the start of the month and another smaller programming challenge in the middle of the month. We also aim to have training sessions and discussions related to **algorithms**, **binary search**, technicalities like **array size** and the likes. Apart from providing a platform for **programming competitions**, CodeChef also has various algorithm tutorials and forum discussions to help those who are new to the world of **computer programming**.

Practice Section (https://www.codechef.com/problems/easy) - A Place to hone your 'Computer Programming Skills'

Try your hand at one of our many practice problems and submit your solution in a language of your choice. Our **programming contest** judge accepts solutions in over 35+ programming languages. Preparing for coding contests were never this much fun! Receive points, and move up through the CodeChef ranks. Use our practice section to better prepare yourself for the multiple **programming challenges** that take place through-out the month on CodeChef.

Compete (https://www.codechef.com/problems/easy) - Monthly Programming Contests and Cook-offs

Here is where you can show off your **computer programming skills**. Take part in our 10 day long monthly coding contest and the shorter format Cook-off **coding contest**. Put yourself up for recognition and win great prizes. Our **programming contests** have prizes worth up to INR 20,000 (for Indian Community), $700 (for Global Community) and lots more CodeChef goodies up for grabs.
